PART-TIME COURSES
MARCH 2018

WELCOME

We are happy to present to you the March 2018 edition of the MCAST Part-Time Courses Prospectus.

Once again, we are delighted to offer you a wide range of part-time courses, ranging from short hobby courses to accredited ones, going up to degree and Masters level. We do our utmost to offer you programmes which are continuously updated and aligned to industry needs.

Thousands of students have experienced our part-time courses during the past years and we are proud to acknowledge their consistent positive feedback. This is the result of our dedicated lecturing staff and administrative support, which students receive during their training at MCAST. We combine tradition and innovation and complement outstanding teaching and learning with the very best facilities in beautiful settings to offer what is, I believe, one of the best environments to study and learn new skills you'll find anywhere.

Following the successful launch of the part-time Master's degree programmes last year, MCAST is proud to launch two new Master's programmes at 'MQF Level 7: the Masters in iGaming Technology and Masters in iGaming Data and Analytics. Furthermore, we will also be launching the Post Graduate Certificate and a range of stand-alone modules in iGaming, thus opening new venues for development in this popular career path.

Another exiting novelty in this prospectus is the launch of MCASTeens 2018. Youngsters from 12 to 16 years old are given the opportunity to engage themselves in a new experience, the DISCOVERY Summer Camp. The eight week programme will be held during the summer holidays and gives them the opportunity to enjoy a weekly thematic programme, packed with hands-on activities with great possibilities to discover the world of vocational education and beyond. More details about the MCASTeens 2018 DISCOVERY Summer Camp programme can be found on the back page.

We therefore would like to invite you to go through the list of all the part-time courses on offer in this edition and to choose the course which suits you most. We look forward to being at your service throughout the time you spend at MCAST.

Cancellation of lectures will be communicated to students via SMS on the mobile number indicated on the application form.

Course Examinations and Certification

Successful completion of courses certified by MCAST entitles the student to either a 'Certificate of Attendance' or a 'Certificate of Achievement'. Further information on which type of certificate one can achieve can be obtained from the course outline available on shortcourses.mcast.edu.mt.

1. Certificate of Attendance

A certificate will be issued if attendance **exceeds 80%** of course duration.

2. Certificate of Achievement

To obtain a Certificate of Achievement, a student must;

- **Attend a minimum of 80% of the course**
- **Pass successfully the test/assessment.**

A student will not be eligible to sit for the final test/assessment if he/she has not attended 80% of the course. Candidates who wish to receive their certificate by post can do so at a fee of €4 to cover mailing costs.

Full Certification

Courses to which a MCAST Level and number of ECTS/ECVET have been assigned can be used as building blocks leading to a full Certification.

As an example, it may be possible to take separate units at Level 4 in engineering totalling up to 30 credits and thus qualify for a Level 4 Certificate in Engineering. The combination of units needs to be approved by MCAST.

Units can also be taken separately and in such cases a single unit certificate will be issued after successful completion of the unit.

More information can be obtained from the Office of Part-Time Courses by calling on numbers **23987777** or e-mail shortcourses@mcast.edu.mt
